

SmartRead[®] Plus

Automatic Digital Blood Pressure Monitor

With 90 Reading Memory

Proven Accurate!
University
Clinical Study

ORIGINAL SERIES

90-Reading
Memory

One-Button
Operation

WHO*
Indicator

Large,
Easy-
To-Read
Digital
Display

Includes:

- Detailed instruction guidebook in English, French, Portuguese and Spanish
- Convenient nylon, zippered storage case
- Quick Start Guide
- Four (4) AA Batteries
- AC adapter port

Clinically validated by the British Hypertension Society, the leading international organization for high blood pressure research and patient care.

Features:

- Advanced SmartRead[®] Technology: Fuzzy Logic inflation and Controlled Deflation
- 90 reading memory
- Fully automatic one-button operation
- Date and Time Stamp; Average of last three (3) readings
- WHO* Indicator alerts of higher than average readings
- Displays systolic, diastolic, and pulse readings simultaneously
- Soft, comfortable arm cuff: fits Adult and Large Adult arm circumferences
- Toll-free Customer Care Help Line

• LIFETIME LIMITED WARRANTY

SOCIETY
A/A Graded

Advanced Technology

- **SmartRead[®] Technology** - A combination of two advanced systems: Fuzzy Logic inflation and Controlled Deflation.
- **Fuzzy Logic inflation** - Your blood pressure monitor automatically determines the pressure level at which to inflate. The need for presetting inflation levels is obsolete. If the system determines additional pressure is needed, it will either automatically reinflate to a determined level, or perform a second inflation.
- **Controlled Deflation** - After reading and sensing the amount of pressure in the cuff, the pressure is steadily released through an electronic micro-valve. This feature provides a constant and exact rate of deflation to ensure the most accurate reading possible.

PRODUCT SPECIFICATIONS

Model No

04-310-001
04-310-006

Fits Arm Circumferences

9¹/₂" - 14¹/₂"
13¹/₂" - 18¹/₂"

Measuring Range

Pressure: 40 to 250 mmHg
Pulse: 40-199 beats/minute

Accuracy

Pressure: 33mmHg
Pulse: 35% of reading

Pressurization: Automatic inflation by pump

Deflation: Automatic pressure release valve

Batteries: 4 AA Included

Memory

Built-in memory up to 90 measurements with date and time stamp

Latex-free: Yes

Warranty: Lifetime Limited

ACCESSORIES

04-225-004

Small Adult Cuff 7"-10¹/₂" (18-26 cm)

04-225-001

Adult Cuff 9¹/₂"-14¹/₂" (24-36 cm)

04-225-006

Large Adult Cuff 13¹/₂"-18¹/₂" (34-46 cm)

04-225-000

Wide Range™ Cuff

04-197-000

AC Adapter
